

Turn your waiting room into a revenue room.

40% of Medicare patients “no show” for a scheduled Annual Wellness Exam, wasting your practice’s valuable time and money. No more!

Reach 80-85% of your eligible Medicare patients per year with an AWV. With ChartSpan's RapidAWV™, you can offer your Medicare patients a complete annual wellness visit at their fingertips, while they wait to be called in for their appointment.

## Improve your quality of care and patient outcomes.

Quality-based health care leads to improved patient health. The preventative services associated with Annual Wellness Visits have shown a 5.7% reduction in healthcare costs for patients who participate in an AWV.\* Utilizing ChartSpan's RapidAWV™ solution develops an ongoing preventive plan for patients, fostering a proactive, loyal relationship.

## Increase your revenue while repurposing existing staff.

RapidAWV™ allows you to reduce the amount of time your staff would spend on a traditional Annual Wellness Visit, instead generating higher value revenue while automating RapidAWV™.

## Improve MIPS and ACO quality measure performance easily.

Quality measure performance for those with AWVs has been proven to be significantly higher than those without. RapidAWV™ helps ensure you score well on your MIPS quality measures.

It only takes your patients 10-12 minutes.

You can engage your patients as they come in the door. Simply hand them an iPad and ask them to complete the questionnaire provided on the screen. It will take them approximately 10-12 minutes to complete the questionnaire.

RapidAWV™ integrates perfectly with an ongoing, quality CCM program. If you are interested in learning more about ChartSpan's RapidAWV™ solution, please contact us at [sales@chartspan.com](mailto:sales@chartspan.com) or **855-CHARTSPAN**.
