

Maintain Pharmacy Efficiency During COVID-19

Rapid implementation services provide assurance - 24/7/365

Maintaining efficient pharmacy operations during the COVID-19 pandemic is paramount. CPS Telepharmacy team understands the pressures on pharmacists and hospital staff. While we cannot remove the burden, CPS Telepharmacy is eager to help.

CPS Telepharmacy provides a tailored remote assistance offering that can help if your pharmacy is concerned about its ability to meet staffing and volume demands during this time.

Our rapid implementation services grant your team access to immediate telepharmacy support. Our remote team is able to provide short-term assistance during this crisis.

Working from a secure, licensed pharmacy location, the CPS Telepharmacy team supports hospital and health system pharmacies nationwide with 24/7/365 coverage that adapts to your unique operating procedure.

- ✓ **Remote Order Entry** - Supports pharmacy staffing augmentation and flexibility
- ✓ **Admission Medication Reconciliation** - Allows your nursing staff to commit greater focus to direct patient care
- ✓ **Transitions of Care** - Reduces readmissions and improves HCAHPS scores and STAR ratings
- ✓ **Patient Discharge Consultation** - Ensures the patient has the appropriate medications and helps prevent medication-related readmissions

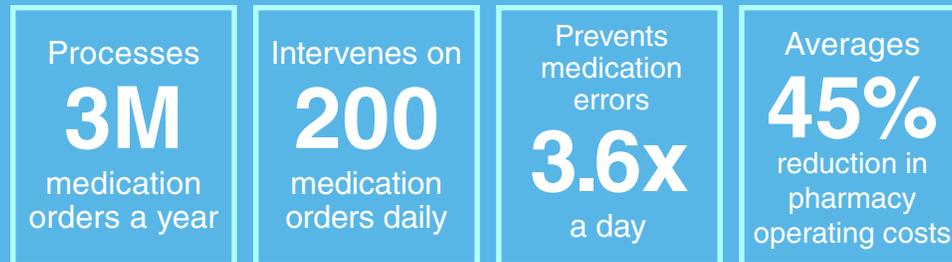

With advance notification, CPS Telepharmacy may be able to work on a PRN basis while your hospital works through COVID-19 challenges.

Please note that for some facilities, PRN is not ideal. Ramp-up time for support typically is two weeks depending on facility specifics.

TELEpharmacy

As a proven leader in remote pharmacy services, CPS provides assistance during peak demand with seamless support from licensed, full-time pharmacists to **reduce the burden that hospitals face during staffing shortages or spikes in volume.**

CPS Telepharmacy meets The Joint Commission, CMS, HIPAA regulations and state regulatory agency requirements.

CPS Telepharmacy supports pharmacy efficiency while empowering hospitals to reduce readmissions, lower costs, improve clinical outcomes and decrease adverse drug events while preserving a high level of patient care with seamless delivery of pharmacy services.

Please reach out to us if CPS Telepharmacy can be of service.
